QUALITY ASSURANCE

NTM's Quality Control wing diligently monitors and rigorously ensures the implementation of SOPs and guidelines designed to produce prime quality products for our valuable business partners.

Quality control inspectors in NTM act as 'POLICE' to conduct inspections on AQL basis right from the initial stage of sourcing raw materials, trims and packaging materials, in-line processes, till final finished textiles.

Lean 6a (six-sigma) and l00% inspection methodologies are implemented by Quality Control & Assurance wing at NTM for optimizing the resources, efforts and energy of our organization toward creating value for the customers.

NAGARIA
TEXTILE MILLS (PVT)LTD.

QUALITY MANAGEMENT SYSTEM
QMS

NTM has designed its QMS on the following rules.

- Constancy of purpose towards improvement
- Adaptation of new philosophy
- Stop depending on inspections
- Use a single supplier for any one item.
- Improve constantly and forever
- Use training on the job
- Implement leadership
- Eliminate fear
- Break down barriers between departments
- Eliminate management by objectives
- Remove barriers to pride of workmanship
- Implement educational programs for the workforce to improve efficiency
- Make "transformation" everyone's job
